

Membership Request

As a non-profit organization, Schooner Inc relies heavily on the support of families and individuals like you to provide educational programs focused on marine science and environmental awareness. Though many of Connecticut's citizens live on or near the shoreline, many have not had the opportunity to experience or learn about Long Island Sound. With all the critical issues affecting the health of this amazing resource, it is more important than ever to provide educational, hands-on and exciting programming that connects all ages to our Sound. Your support allows Schooner Inc to continue to provide these vital programs and expand our efforts throughout Connecticut.
